Good for you.

As I said, western medicine is good for TRAUMA - get shot, stabbed, run over, heart attack.
But diseases? Philippine western medicine failed US every time.

[View Gallery](#)

Can I please ask why you automatically assume my case was trauma? 🤔??
It was in fact congenital heart DISEASE. Only curable through open heart surgery.

Come on guys... Its 2009 and someone talking about diet somehow manages to generate six pages?

Obviously, if you drink nothing but fast food and sugary fizzy drinks and alcohol it will effect your immune system in some way. But I'm confident that if you eat reasonably healthy and exercise well, it will have the same effect as any diet. The only exception being is if you are allergic to something. You dont have to eat 'raw only'

'goodsamaratin' works like this...

1. Feed you with unproveable/untraceably testimonials
2. Make you feel guilty about what you eat, your thoughts, your lifestyle
3. Design a treatment that involves products/foods that are difficult to get hold off
4. Talk about methods such as 'oil extraction' for cleaning teeth without describing exactly how it works
5. Describe his own lifestyle as 'easy' 'financially rewarding' etc... e.g. slip in personal cook, pays his employees, uses internet in office

Eventually, he will be selling his methods so you can be just like him... Cure your psoriasis! Have a personal cook! No longer watch tv (it causes psoriasis) because you will become so spiritually enlightened (but trawl the net) that your psoriais will be cured! Plus you can get rich.

Of course this will all be denied but I can guarantee he will go into the direction of 'positive thinking' and eating right will raise your consciousness and the power of 'law of attraction' will reward you. Here's my story, you can be like me too.. go to my website... buy goats heart extrat soothing cream from here only for \$\$\$\$\$£££££

He already stated he has a website.. He's just biding his time to get the opportunity to direct you to it.

« Reply #52 on: Yesterday at 08:58:11 PM »

i quite like the law of attraction - but only because i believe in balance in life - if you keep your mind open to something then it doesnt MAKE it come along - it would have come along anyway but an open mind will see it.

[View Gallery](#)

Anyway, back to topic - a balance in everything is your best platform, that diet doesnt sound overly healthy in the long run - just as unhealthy as junk and alcohol. but a good balanced diet is a great foundation for making your body feel better which will make your mind better and that has to help P 😊

One for all, and all for one...

The diet actually is easily google'd. It doesnt have to involve complex foods you cant buy, you can eat raw fish (tuna etc) and most salad and some raw vegs if you choose.

oil pulling ison google

so is colonic therapy etc etc etc

so im sorry aquaman but i think you are seeing a con where none exists

you can google 'vit d3' for psoriasis but if I directed you to a website where I start charging for bits and pieces related to it, would that be a con?

Like I said... wait for the website link.

Come on! 'Personal chef!' ... 'launched a new website'... 'pay my employees'...'surf the internet at work' what has that information got to do with psoriasis? He's about to sell you a dream. I've seen it so often!

Tsk tsk, Aquaman... too easy to judge. Get to know me first. You can google for my name: Edwin Casimero

Have you not heard of REAL Good Samaritans? ALTRUISM?

Maybe in your country they are impossible to find.

But if you've been reading you realize I live in a different country, with a different culture.

So I live in the Philippines and me and my wife have 3 nannies, 1 chef and 1 driver. My parents used to have more when we had bigger businesses.

From my January 2007 Notes on my Brother's Psoriasis Crisis:

The new year 2007 started with a bang. My brother came to me to ask for help with his PSORIASIS which raged again for a second time with full body acne. It was horrible. My cousin rescued him in his apartment which stunk so bad, smell of death or decay.

He immediately good some immune booster shots from our Anthroposophic Doctor Divina Hey-Gonzales.

I put him on zappers 24 hours a day. I bought an expensive pyroenergen machine to keep him alive for the time being.

I think the damage is much worse internally. No time to be afraid, push on we must. My brother is tired of being sick. He is mentally ready to do anything and everything to be finally well.

One must always be humble to learn even more. My brother's emergency led me to ask the help of the experts at Cure Zone. I posted identical messages in the Liver Flush Support and Ask Moreless forums.

Hello,

I'm helping my dearest younger brother with his full body eczema / psoriases, recurring full body acne. His whole body is charred ugly.

He is 26 years old. Was born and raised in a house fully stocked with brand new smelly Tires (the ones on your cars and trucks) + Lead casting machines.

He started his skin problems around 12 years old and had been stuffed with injections, steroids and all sorts of poisons by well meaning but ignorant MDs.

9 years ago he started using putting on Petroleum Jelly (vaseline) everyday for 8 years on his whole body to compensate for his skin dryness.

He went through a full body acne attack last May 2006 and with this he came to me for help as his MDs were all useless at this point (he finally realized it). I took him off the vaseline and he substituted a papaya based lotion. And with a 5 session colon hydrotherapy, his acne attack vanished. His skin was still rough, dry and itched.

This January he came back to me and had a recurrence of the full body acne. I finally convinced him to do the Liver Flushes ... finally!

The acne raged further the morning after drinking his Extra Virgin Olive Oil. He felt like DYING. (toxins unleashed!) I gave him epsom salts to flush out the stones.

My brother wound up expelling around 150++ ALL BLACK stones. (just yesterday)

I am happy for him but... I heard BLACK stones are the oldest and most toxic stones! But this is just flush #1 !!! And I also heard that it is quite possible that black stones are a sign of liver cirrhosis! Oh my!

My questions are:

- #1 I'm fearing the worst, liver cirrhosis. Is it already the worst possible?
- #2 How should we go about our flushing schedule? is every 2 weeks too aggressive?
- #3 His kidney cleanse is ongoing, it is easy here, we have coconut juice everyday. His parasite cleanse capsules are not yet finished, just on his first week using VitaKlenz from australia.
- #4 Any special diet or supplements for liver cirrhosis?

Thanks in advance!

Positive thinking! I will be documenting the steps we take as it happens.

---- January 2007 -----

P.S. Look, no links. Nothing to sell. Nothing for me to make money out of.

P.S. 2 - More to updates to come.

P.S. 3 - these are just recaps of my brother's almost dead psoriasis ordeal. My brother is now absolutely beautiful (but fat), got married and is going up his career, his wife is pregnant with his first child. He's happy and living his life.
